## NEW BARRACKS TO BE IN WEST END

As will be noticed in another part of this paper, the Department of Public Works are calling for tenders for the new Provincial Police Barracks to be erected here. They have chosen a site in the west townsite, offered them by the West Canadian, and work will commence as soon as the tender is awarded. The site selected is just west of Mr. F. M. Pinkney's residence by the bridge which leads over to the tipple. They were also offered a site on east Victoria Street by the town council, which was to have been in the form of a grant and just why they chose the site in the west end was not stated in their communication to the council, but it probably offered advantages known to the department only, which decided the matter.

## SUCCESSFUL TEA

The tea and sale of work held by the Ladies' Aid of the Union Church at the home of Mrs. L. H. Putman on July 13th, was one of the most successful events the Aid has ever held. The net sum of \$71.00 was collected from the tea and sale will go towards the manse building fund. The fancy work was all sold before half of the ladies had a chance to buy what they wanted, so several orders were taken for different articles. It was easily the best attended event the Aid has held also. The Ladies' Aid wish to thank those who so kindly donated the work, etc., and also those who attended, which made the tea and sale such a success.

The Fourex baseball team of Calgary defeated Big Valley in the first game of the semi-finals by a score of 7 to 5.

## CHEAPER CURRENT FOR CONSUMERS

The regular meeting of the town council was held last Monday evening with all councillors present with the exception of Mayor McLeod and E. Picarillo. Mayor McLeod having left for the coast Councillor O. Morgan was appointed deputy mayor for the ensuing term. Accounts totalling \$1921.28 were passed for payment subject to the approval of the various committees.

The application of E. J. Pozzi for a permit to erect a fire-proof building on Victoria Street next to Burns meat market was granted.

By-law No. 76 was introduced and received its first reading. It is in regard to building permits and apes over the whole of the town, to the effect that anyone contemplating erecting, moving, or adding to, any residence, office, etc., must submit a plan of same to the council for approval. It also embodies the fact that there are to be certain regulations applied to water and lights or power for such buildings and anyone failing to comply with the by-law will be liable to a fine not to exceed \$50, or in default of payment of such fine, 20 days in jail, with or without hard labor.

The deputy mayor and secretary-treasurer were authorized to sign cheques and other documents for the town.

A communication was received from the Department of Public Works stating that they had accepted the offer of the West Canadian Collieries for a site for the new Police barracks and court house to be erected and thanked the council for the co-operation and services they had rendered in the matter.

A motion was also passed that the current for light and power be charged for at the rate of 10 cents per kilowatt-hour and the minimum rate remain at 75 cents. It also embodies the fact that all discounts are to be discontinued and accounts must be paid promptly or the service will be cut off. Council adjourned at 11:10 p.m.

## BAIRMORE WINS FOOTBALL GAME

The football game last night in the first round of the Crahan cup series between Coal Creek and Blairmore resulted in a win for the latter by a score of 3-0. In the first part of the game Coal Creek started out as if they were going to administer a defeat to the locals, but after a few minutes of play the locals drove them back and managed to keep the ball in Coal Creek territory for the remainder of the first half. The period ended 1-0 in favor of Blairmore. The last half started out a little more even, but the locals had the best of it and managed to score two more goals, ending the game 3-0. The Coal Creek goalie scored one goal for the locals and one of the Creek backs knocked another in, and Yates got the odd one. By winning this game Blairmore is still in the running for the Crahan cup, which they are the defenders. The next draw will take place Saturday which will decide the team which will meet the locals next. The Blairmore team lined up as follows: Whitelaw, goal; Martin and McAndrew, defense; McVey, Jackson and Turner, half-backs; Ford, Yates, Rhodes, Jones and McGuinnis, forwards.

The game was witnessed by about one hundred fans.

The cottages in the west end being erected for the Coal company by Contractor Pozzi are progressing rapidly.

Baseball—Blairmore vs. Taber, on Saturday, July 29th, at 6 p.m. sharp.

The non-union miners in the Drumheller valley have quit work.

## SUMMER CAMP OPENS MONDAY

The summer camp of the Tuxis and Trail Ranger boys of the Crows' Nest District will open at Lee Lake on Monday next and everything is now in readiness for the event.

There are over thirty boys from Blairmore alone enrolled, and at least another

## BASEBALL GAME SATURDAY

A rare treat is in store for the local baseball fans on Saturday evening next when the Blairmore crew will play Taber on the local diamond.

The game is called for six o'clock sharp and we have been assured that it will start on the dot. This is the first of a home and home series with the Taber team in the semi-finals of the province for the amateur championship and should be a humdinger of a game. Blairmore will journey to Taber next Wednesday, August 2 for the return game and the winner of these games will then play some other team in the south, and so until the finals are reached. The local fans feel confident that our boys are all up to the mark and will give any team in the province a good run for their money. The team will need a good bit of cash to make the trip to Taber and we would like to impress upon all amateur sport-loving fans the necessity of turning out and supporting the boys.

## "The Bank Won't Bother With It"

"If I open a Savings Account for \$1,00, it will look so foolish—I'll wait until I have \$50 or \$100." That is what is keeping thousands of persons poor.

The Union Bank is the Bank of the People. We welcome your Savings Account whether you open it with \$1 or \$100.

## A POISON STOREHOUSE IN EVERY HOME

You may not think so, but that's what happens to everyone of us when the "kiddies" are around. They hide the poisons—the filters that remove from the blood the waste matter that acts like deadly poison on the vitality and health of the system. *Hamilton's Pills* stimulate the kidneys, expel fermenting matter from the bowels, restore the liver and stimulates all excretory organs. "No medicine will ever do more good than *Hamilton's Pills*—make you feel at fine as quickly as Dr. Hamilton's Pills." Useful and needed in every home. Dr. Hamilton's Pills—Medicinal and Buttercup, Sic Decreas, or The Calcarophine Co., Montreal.

## MY CANADA

BY  
ELINGAR MARSDEN ELLIOT

Published by Special Arrangement  
with the Author

(Continued)

"You may be sure we were very quiet, and when Mrs. Black spoke to her husband after a few minutes we all jumped."

"Sandy," she said, "can ye no tak' heed what the bairns are doing?"

"Sandy was a good-natured man whose easy ways were a sore trial to his energetic wife. "Whitie, Whitie," he would say, "ye're auld enough to have their play. They'll be auld soon enough, eh, Donald boy?"

Here Mrs. Livingstone paused, and Gyp, who had been listening before she knew what was expected of the audience, said eagerly:

"So Sandy and Donald were the names were they?"

"That's right, my girl. And in course of time I married Donald Livingston and Janet married Sandy Morrison!"

"But what about Margaret?" I asked.

"Ah! my dear, that is the strange part of the story," and Mrs. Livingstone related the whole tale. "When Mrs. Black went into the bedroom, and while we could not hear her rightly she called some question to her good man. 'No,' replied, 'I drew a blank.'

"How we girls did laugh at Margaret, for we read the oracle to most of us, and were never surprised, and you believe, eh, never did?"

The man she was promised to was lost when he was out hunting, and Margaret lived and died a single woman.

"Well, well those were the good old days!" sighed Mrs. Livingstone. "Not that I'll be advertising any young folks to me, but I'm still here, and I'm still here, believe it or not, never did."

The man she was promised to was lost when he was out hunting, and Margaret lived and died a single woman.

"I wish that I were able to describe as well as I should be able to, the after-work and its activities, to come back to the twentieth century."

Quoting again from the *Argus*: "Prominent citizens had, as per usual, prepared a lengthy programme of entertainment, and the competition and classical tug-of-war between the Bachelors and the Beneficiaries was rivaled in interest only by the Married Ladies' contest and the Bachelors' thrilling contest for Unmarried Ladies. The last-mentioned event was won by

a newcomer to our town and country, and we congratulate him. *Elmer Elkes* of Wilmington, England, upon his prowess. During the afternoon our band, under the able leadership of Mr. Hartford, the director of the band, gave a succession of sweet music to the delight and edification of all assembled." There is a whole story in that, but this is all I know what the Argus can do when it is backed up into a corner. That last phrase is Mr. Flaxy.

Now the Argus can do justice to the Dale Show. Our Cookney friends won first prize with their ten-month-old "Helen Arriet," the prima being a bassoon. The credit of Elmer Elkes' success is due to the credit of Dr. Hamilton's Pills. Useful and needed in every home. Dr. Hamilton's Pills—Medicinal and Buttercup, Sic Decreas, or The Calcarophine Co., Montreal.

A Story of a Fish That Builds a Nest.

**T**ELL us a fish story, Stella, dear," said Snookums. "We do—please," the three other Brownies begged. "We feel like this."

The Wishing Fairy who always likes to make everyone happy sat down, thought a few moments and then began talking.

"To-day," she said, "I will tell you of a very small fish, only two or three inches long, but I think it amazingly interesting, and its name is 'Stickleback.'

"Just from its name, I like that fish already!" exclaimed Plumie. "Why is it called that?"

"Because two of his tiny fins have changed to spines. It is really beautiful, for otherwise his body is silver and has purple and gold bands on his back, and his tail is gold and red, and his sides are silver. His fins are fastened to the skin; it's a fish overlapping another; while they all point or lap toward the tail. The color of a fish is in its scales, which are quite slippery, for they are covered with a slime that is made by the fish near its mouth, and it is this slime that causes all the scales. This makes it easy for the fish to slip through the water."

"Tell me some more about Sticklebacks," said Snookums.

"They all build nests on the sand under water just as carefully as birds do. Mr. Stickleback does not care for the work, but his mate, Mrs. Stickleback, does all the work, pieces of fine sand and water grass in his mouth to the spot he has chosen for a home, and there he carefully places each tiny bit until he has woven a wee nest, which he cements with a glue-like liquid that he can cause to ooze from his skin."

"Tell me more about Mrs. Stickleback," said Plumie.

"She is very lazy, I am afraid," said the Wishing Fairy. "She doesn't help; but after the nest is quite ready she lays her eggs in it and then swims away."

"It's a broodless female," laughed Plumie.

"That is quite true," said Stella. "Mrs. Stickleback is such a wonderful little father that he more than makes up for their mother's neglect to the fry."

### For Hiccups and Heartburn Here is a Good Prescription

Nothing brings such satisfactory relief as slowly slipping a few drops of "Nervilin" in sweetened water. Nervilin relieves those complaints of the stomach, just as it does neuralgias, gas belching and fermentation in the stomach. Acute stomach pain, bloating, nausea, and similar complaints are cured by Nervilin. It is a true friend of every invalid. Sold by all dealers, 35c per bottle.

### Struck the Ex-Kaiser

Lieutenant "Condemned to Death Permitted to Commit Suicide" The ex-Kaiser, the newspaper state, is to bring a libel action against a number of newspapers which gave publicity to a strange account of the manner in which Naval Lieutenant von Halmke met his death in June, 1897.

It was alleged that the Kaiser, during one of his trips with the fleet to Scandianvian waters, struck Lieutenant Halmke who retaliated with a blow in the face. He was arrested and sentenced to death by a court-martial, but was given permission to commit suicide by means of a pretended motor-cycle accident.

Some day I shall have my farm, but for a few months at least I shall improve my wretched surroundings. I have heard all the advice the Fates are pleased to send. It is still my intention to obtain a position as working companion. I can assure you that all the other things that I have seen and learned! There are many things in heaven and earth that I did not know. I am not ashamed to admit that the aforesaid ladies and men do not play so prominent a part in my scheme of life as they once did.

Perhaps the air in Canada is unsettling. Perhaps with men, as in other matters, familiarity breeds contempt. Perhaps the way seems fairer to the conclusion that Canada is to be preferred to even a model dairy, Canadians to the most fascinating of men and human interest to her inestimable worth.

Some day I shall have my farm, but for a few months at least I shall improve my wretched surroundings. I have heard all the advice the Fates are pleased to send. ## WORLD HAPPENINGS BRIEFLY TOLD

Dr. J. A. Bancroft, who resigned the chair of metallurgy in McGill a year ago, will return to McGill in the autumn.

Ignace Jan Paderewski will return to the piano next fall, touring the United States and Canada, it has been announced.

Fire completely destroyed the rail-way car factory of the Orenstein and Koppel works at Spandau, Germany. Damage was done to extent of several millions of marks.

W. H. Robinson, aviator, and two men passengers were burned to death at Los Angeles when the airplane in which they were flying caught fire and fell.

The skeleton of John Collins, a Belgian farm hand, who disappeared under mysterious circumstances from a High Bluff farm last January, was found on the outskirts of Winnipeg.

The Swiss Government, it was announced had decided to adhere to the St. Germain convention for international control of traffic in arms and ammunition. The decision is subject to approval by the Swiss Parliament.

Shortage of food has grown acute in Britain. The shops are charging exorbitant prices for bacon and bread. No larders and only a few jaunting cars are available, and the drivers demand extra payment for the risk they run, allowing no discount, however, for the risk the passenger takes. The newsboys ask double price for papers.

A new town of about 1,500 population will be established between Elko and Waldo, B.C., in the Crown's Nest Pass country. If plans of a syndicate of Chicago newspapers for establishment of a pulp mill on the Elk River materialize, according to C. D. MacNab, of Waldo. An expenditure of about \$3,500,000 is involved.

The Royal Mail liner *Orbita* was successfully navigated through a narrow channel leading to Portsmouth Harbor by electrical signals from the Admiralty's submarine cable laid 20 miles out to sea, with the object of lessening the fog peril near the harbor. The *Orbita*, up to the present time is the only ship on which the necessary equipment has been installed.

## When a fellow needs a friend—

EVER wake up in the morning feeling fagged and foggy?

Tired muscles and weary brains call for a breakfast of Grape-Nuts, the friendly, easily digested food, to fortify against exhaustion.

Grape-Nuts repairs the daily wear and tear on body tissue. It provides the essentials for rebuilding body and nerve cells; lime for the teeth and bones; iron for the blood.

Make this crisp and toothsome cereal a regular part of your daily diet. Made from wheat and malted barley, and partially pre-digested by 20-hours' scientific baking, Grape-Nuts with cream or milk is a complete food—satisfying, without overtaxing the digestion.

Sold by grocers everywhere!

"There's a Reason"  
for Grape-Nuts

## Dangerous Cargoes Sailors Dislike to Sail With a Cargo of Sugar or Coffee

At first thought it would seem that dynamite was a cargo to be carefully avoided, but from a sailor's point of view there are far more dangerous cargoes. He dreads, for instance, a cargo of sugar! Put hundreds of tons of coarse sugar in casks in the hold of a ship and let the ship pass through a spell of bad weather, the odor is sickening. The sailors can not get the sweet taste out of their mouths and crave vinegar or lime juice—anything sour. They lose their appetites and are always glad when a voyage on which the cargo was sugar is over. Coffee is as disagreeable as sugar, in addition being very dangerous.

Cotton is a really dangerous cargo. If a little oil happens to touch raw cotton, the result is spontaneous combustion. A single bale of cotton saturated with such an oil as boiled linseed and lying at the bottom of a hold can be compared only to a slow match attached to a bomb.

Acids and other chemicals form dangerous explosives. Carbolic oil is one of them, for example. Acetylene gas is made from this chemical and the gas is constantly given off if the product is exposed to air.

Shipowners dislike to carry drums of acid where they can be reached easily. A Chilean ship recently put into the Falkland Islands having had trouble. Her cargo was made up of drums of acid and chalk. The acid had leaked from the drums and mixed with the chalk, forming carbonic acid gas in the hold. This gas was weak and the crew could not make repairs. Meantime, the acid had gathered in the bottom of the ship and had eaten away the iron frames there.

The Family Physician. The good doctor is always worth his fee. But it is not always possible to get a doctor when you want him. In such cases, consider the suggestion of Dr. Williams' Pink Pills and see how soon good appetite returns and the weak boy or lame girl becomes a healthy, strong, high-spirited youth. Mr. P. Garvey, R.R. No. 5, Mono Mills, Ont., tells what this medicine did for her young son. She says: "Three years ago, my son, a boy of 13 years, was very pale and weak. He would take fainting spells and complained of a pain about his heart. One day I had a friend over and she told me that her daughter had been in a similar state and found new health through Dr. Williams' Pink Pills. I therefore got some for my boy, and he became well again. I have since given Dr. Williams' Pink Pills to many others and they have all been successful. Dr. Williams' Pink Pills are unequalled for anyone weak and run-down."

Dr. Williams' Pink Pills are sold by all druggists and by mail. Each box contains a box or six boxes for \$2.50. From Dr. Williams' Medicine Co., Brockville, Ont.

In New Guinea both men and women are subjected from infancy to a distention of the lobes of the ear until, in maturity, the orifice is so large that a ring can be inserted as big as a child's small hoop. It is their notion of beauty.

Color-blindness, hearing, the sense of touch and other perceptions in individuals can be measured by a newly-designed apparatus.

Among the head-hunting tribes of Borneo custom forbids a widow to remarry until eight months after the death of his wife.

Manitoba Butter Wins

Awarded Prizes at Exhibitions in

Calgary and Edmonton

For years butter made at Manitoba creameries has won the most available place at the leading Canadian exhibitions. Word has been received by the Department of Agriculture of the awards won at Calgary and Edmonton by an exhibit placed by the Brandon Branch of the Crescent Creamery Company.

This creamery won two first prizes on May butter at Calgary; one first, one second, and two thirds at Edmonton. Winnings at Calgary also include a bronze medal and diploma for third highest average score given to any butter on exhibition; also a special prize of \$15 and provincial championship ribbon.

Twenty-four butter samples were entered in these exhibitions, from Quebec, Ontario, Saskatchewan, Alberta, Manitoba and British Columbia," said Mr. Gibson, Dairy Commissioner.

1,500 Telephone Directories  
About 1,500 different telephone directories, with an aggregate circulation of 25,000,000 copies a year, are issued by the principal telephone system in the United States. To print and distribute the directories costs the corporation approximately \$8,000,000 a year.

Fountain Paint Brush

An Iowa man is the inventor of a fountain paint brush that combines the accuracy of a hand brush with the speed of a spray device.

Mackenzie, the largest political division of Canada, has an area of 562,182 square miles.

Opera performed in Berlin and transmitted by wireless telephone was distinctly heard 600 miles away.

## Woman Founded Successful Firm

Business Started in 1878 Now Has 100

Branches  
One of the romances of business in London was ended by the burial at Putney Vale Cemetery of Mrs. Greig, the founder of the famous provision firm of David Greig.

Mrs. Greig, who was 85, left her native Scotland, married in Scotland, in 1870, and came to London to seek her fortune. She opened a small provision shop in High Street, Horsham, and the business flourished so well that it was not long before branches were opened.

David Greig, who had assisted his mother, went to Brixton in 1889 and started a branch. That branch became the headquarters of the firm, which has now 100 stores in all parts of London, and is one of the largest and most reputable trading concerns in this kind of business in the south of England.

Mrs. Greig continued to direct the business up to 30 years ago, when she retired. She, however, took great interest in the firm's affairs up to the time of her death.

Her kind nature, and sympathy became almost proverbial in the provision trade, and she furnished one of the most notable examples of woman's success in business in London.

An Engaging Chinese Figure  
General Wu is Clever Politician Without Conceit

General Wu is the most engaging figure that has appeared in Chinese politics for a long time. He has none of the conceit and cunning that mark Sun Yat-Sen's character, and seems to be free from the chicanery and unscrupulousness of that bandit risen in the world, Chang Tai-Lin. He expresses himself well and patriotically. He does not, he says, desire office, but the opportunity to unify China, abolish militarism, revive industry and gain the respect of the world. Of course men who were not so modest as they would like to be, would be jealous of General Wu, but he is a honest, likable fellow with more than his share of brains.

Minard's Liniment for Burns, etc.

The Heart of a Prince

The secret of the Prince's conquest of all sorts of conditions of men lies in his fine heart and hearty good-will. He needs no conceit oropathy; he feels it. Everywhere his presence carries the sincere conviction of our determination to promote the ordered liberty and happiness of all peoples gathered under the King's rule.—London Daily Mail.

## SENDS TANLAC TO RELATIVES IN HOLLAND

North Vancouver Woman Says She Wishes Everybody In The World Could Have The Medicine—Restored Her To Splendid Health.

"I think as much of Tanlac I am sending it to my relatives in Holland for I want them to know what a wonderful medicine we have over here," said Mrs. C. Spruitenburg, 15th St. E., North Vancouver, B.C.

"I suffered from stomach trouble and other ailments so long I was almost a nervous and physical wreck. After meals my food soured and I often bloated until I could scarcely breathe. My nerves got to such an awful condition I couldn't sleep nights, and I had dizzy, fainting spells so often I was afraid to risk myself alone."

"My first bottle of Tanlac helped me so much I kept on taking it until I feel like a different person. My stomach never gives me any trouble, my nerves are normal and I sleep like a child every night. I wish everybody in the world could have Tanlac. I cannot praise it too highly."

Tanlac is sold by all good druggists.

## Indians Unearth Antiques

Indians on Christian Island stirred by the recent search for Jesuit treasure in the River Wye have been busy digging around the ruins of Fort St. Marie and have recovered several pieces of ancient art of the French period to Ontario centers of art. These include the inscribed conch shells which were taken by the Jesuits from their first fort on the mainland when they had to abandon it under the attack of the Iroquois.

There is also an iron ink well thought to have been used by the missionaries, two ancient keys dug up inside the old fort and two knives.

## Had Your Iron Today?

## Work Brains— Not Digestion

HERE'S an ideal hot-weather luncheon!

Two packages luscious Little Sun-Maid Raisins—one cool glass of milk. Big men don't need more.

290 calories of energizing nutriment in the little raisins. Pure fruit sugar, practically predigested so it acts almost immediately, yet doesn't tax digestion and thus heat the blood.

There's fatigue-resisting food-iron also in this lunch.

Vital men eat like this and resist the weather. Don't work their digestion because they want to work their brains.

Try it for a few days and you'll feel better.

## COMMUNICATION

Lethbridge, Alta.,  
July 19th, 1922

The Editor,  
The Blairmore Enterprise,  
Blairmore, Alta.

Sir:

The Veterans United Football Club of Lethbridge, wish to express their medium of your paper, their appreciation of the sportsmanship displayed by the Michel Football Club when they visited Lethbridge recently to oppose us.

The team arrived to play on Saturday, July 15th. Unfortunately the weather precluded all possibility of the game being played that day. After consultation, the Michel team, with no guarantee whatsoever as to the expense incurred by the enforcement stayer, willingly agreed to bear the expense themselves, and remain in Lethbridge throughout Sunday and Monday, in order to play on Monday night. This, it seems to us, displays a sporting spirit rarely found nowadays, and their action in so doing has created a warm spot for Michel in the hearts of the Veterans United Football Club, and, I believe, in the hearts of the football fans of Lethbridge.

The game they played was clean and sporting, and enjoyable both to watch and participate in. Particularly do we congratulate the team upon their captain, Mr. A. McGovern. This gentleman stands out as a thorough footballing sportsman. On the rare occasions when any of his team displayed a tendency to become refractory, his "Now fellows, be men among men, and sports among sports" never failed to steady them, and we thank him for the implied compliment to us. Both on and off the field Mr. McGovern has made warm friends and admirers among the Vets here.

We hope to visit Michel in the near future to play a return match, and are looking forward with keen pleasure to renewing the friendly enmity on the field as well as the deepening of an association which has been so well founded.

Yours very truly,

VETERANS UNITED FOOTBALL CLUB.

H. W. Thomas, President.

## PROVINCIAL NEWS

Issued by the Publicity Commissioner, Government Buildings, Edmonton.

Authorization has been given by Hon. R. G. Reid, minister of health, for the formation of the new municipal hospital district of Athabasca, and on Wednesday of this week, the provisional board of the district is holding a meeting to prepare a hospital scheme which will be voted on later. The new district will include the town of Athabasca, and the Municipal Districts Nos. 637, 638, 668, 696, 698, 727, 728. The Victorian Order of Nurses of Athabasca have offered to lease to the new hospital the present hospital building at Athabasca, at \$1 a year for 10 years, provided the building is used for hospital purposes under the provisions of the Municipal Hospital Act.

A party of ranchers from New Mexico travelling in cars, were visitors to the province during the past week or two. It is their intention to take up stock raising next year in the Belly River district.

New irrigation projects—Without a dissenting vote farmers

of the New West Irrigation district, east of Redwater, voted to create the district and take water from the Canadian Land and Irrigation Co. at a cost which has been estimated at \$45 to \$50 per acre. The following trustees were elected by acclamation: Charles W. Grey, Charles Watterberg, and P. Love. The area in the district will be about 4,700 irrigable acres, and every effort is to be put forth to have the construction work done this summer in order that the water may be available for the land next season.

Five or six thousand acres in the Mountain View and Caldwell districts southwest of Cardston, will be brou under irrigation within the next few years without costing the government a cent either directly or by indirect aid in guaranteeing the bonds if the government will only give the water rights. This is the plan of residents of these districts.

Rapid progress is being made on the construction of the United Irrigation project near Cardston.

A neat pamphlet on municipal hospitals has been issued by the health department and may be had by applying to Arthur K. Whistler, supervisor of organization of the health department.

During the past week, the provincial cabinet had discussions with Hon. Charles Stewart, Dominion minister of the interior, on a co-operative immigration policy. It has been decided that the government will co-operate in a new scheme which will provide for the following up of settlers after they reach the province. It is the idea that a board composed of representatives of the provinces and the dominion will be appointed to superintend the operation of the scheme Alberta will have two representatives on this board.

Over 500 railway passengers agents from all over the continent will hold sessions in Alberta Sept. 12 and 13, at Calgary, Banff and Lake Louise.

Proposals to utilize the present buildings of the Gleichen Agricultural School, which is being closed, for an industrial home for boys, are now being considered by the provincial government and it is likely a decision will be made along this line.

### Special Session

A special session of the Alberta legislature is in progress this week to give effect to legislation which will bring into being, in accordance with recent dominion legislation, a wheat board for the handling of the wheat marketing for Alberta this year. Similar legislation is to be passed by Saskatchewan, and it is anticipated, also by Manitoba. Several features of the natural gas ques-

## NOTICE

After a motor journey of 648 miles from Miami, Florida, W. D. Feldman, accompanied by his wife, is enroute for the Peace River country where he will engage in ranching.

Henry Frans wishes to notify the merchants and other places of business in the Pass that his wife having left her bed and board, he will not be responsible for any debts incurred by electric plant on the Bow River, east of Calgary, to consist of four dams, will be doing so at their own risk.

## What Chiropractic Has Done

The Chiropractor has accomplished with his bare hands what other methods have failed to do; he has given his patients a new lease of life, and the simplicity of his method is a source of wonderment as to why it was not discovered long before by those who made a life-long study of man and his ailments. The explanation seems to lie in that they studied the symptoms rather than the cause.

Chiropractic is based on the theory that all ailments are traceable nerve irritation or impairment caused by abnormal positions of bones of the spine, which may be due to falls, mental or physical shocks, severe illness, etc. After twenty-five years of successful application there can be no legitimate refutation of this theory.

Chiropractic is not limited to nervous disorders only, but is an effective remedy in such cases as fevers, tumors, appendicitis, cataract, pneumonia and other chronic and acute ailments.

### ITALIAN BALL AND CELEBRATION, HILLCREST

(Lethbridge Herald)  
HILLCREST, July 24.—Mike Boivo president of the local union has been away for the past week in connection with the grand Italian ball and celebration to be held this week.

A big open air pavilion is at present being erected in front of the Miners' Hall, as the hall will not be large enough to accommodate all the people expected.

An eighteen-piece orchestra from Trail, B.C., has been engaged to supply music and numerous other arrangements have been made to make the affair a big success.

All proceeds above expenses will be given to the relief committee.

### UNDERWRITE BONDS FOR PULP PROJECT

Wigwam Pulp and Paper Co. Is Name of New Concern in Field at Elko.

(Lethbridge Herald)  
Information in "Printer and Publisher," a trade journal, is to the effect that the company which is developing a big pulp and paper mill hydro-power project at Elko, B.C., is known as the Wigwam Pulp and Paper Co., and that Chicago and Kansas City newspapers are reported to be behind it. Seattle capital, the Herald understands, is developing the project, and \$4,000,000 bonds have already been underwritten for the erection of the plant. The company is capitalized at \$5,000,000 and timber cruisers are now out reporting on the available supply of pulpwood. If enough is available to keep the plant working for 30 years there is no doubt the project will go through.

Baseball—Blairmore vs. Taber, on Saturday, July 29th, at 6 p.m. sharp.

The Mine Rescue and First Aid contests to be held here on Sept. 4 are causing a little excitement around the camp. Three Mine Rescue teams are busy training at Coal Creek and three at Michel. Several First Aid teams are also practising. Several teams from Alberta have sent for information and rules governing these contests. One of the new Mine Rescue cars from Alberta will be in Fernie during the contests for the convenience of the Alberta teams. It is well equipped for this work and will be open for public inspection during the stay in Fernie.—Fernie Free Press.

Baseball—Blairmore vs. Taber, on Saturday, July 29th, at 6 p.m. sharp.

The Lethbridge Fair is next week, July 31st, August 1st and 2nd, and it promises to be the best fair in the history of that city. Preparations are all completed for the big event and a record attendance is expected for the last day August 2nd, Derby Day.

Baseball—Blairmore vs. Taber, on Saturday, July 29th, at 6 p.m. sharp.

### A BOARD OF TRADE?

We have heard some talk recently of the intention of a few local business men trying to get a Board of Trade started here. It is one of the best suggestions we have heard for some time to liven up the town and we are sure that it will receive the support of every sane man, woman and child in the town. All it needs to get started is a little encouragement and this will not be lacking once the first move is made.

Other towns smaller by far than Blairmore have their Board of Trade and they generally manage to get what they want through it too. A Board of Trade has far more pull than any other organization we know of, and especially if anything special is wanted, and it also boosts the town throughout the entire country.

At the present time the need for such an organization here is great. There are several things it could do to attract tourists here. We read in nearly every paper of the fine tourist camps that other towns have, and as yet we have not so much as stuck up a "welcome" sign for the great number of tourists that have passed through here this summer. Another undertaking would be a community play ground for the children of the town, which is indeed badly needed. A park that would attract the attention of all who pass could be made with little trouble, roads in the town could be improved, and a hundred and one other different little matters could be handled by a Board of Trade which would certainly improve the surroundings in which we live and also let the world know that Blairmore is a live town and always on the map.

We understand that a meeting is to be called for the purpose of organizing a Board of Trade in the course of a week or ten days and we would request all who are interested to watch The Enterprise for an announcement of the date of the meeting.

The August issue of Rod and Gun in Canada, which is now on sale, contains a wealth of worth-while reading and it abounds in bright and interesting features. The camper or vacationist will find the big article: "Some Suggestions Regarding Outfit," worth a great deal, for it is written by an outdoors man, specially for the aid of holiday pleasure seekers whose trails lead through the wilds or the open spaces. "The Dandy of the Westmordenland," is a big fishing yarn by Robert Page Lincoln. There is a splendid article by Bonnyeast's Dale, while the absorbing serial: "Men of the Hudson's Bay Company," is another feature. The various departments are filled to the brim with material which the sportsman will not want to miss. The Trap department is an unusually generous one, containing a long breezy account of the Eastern Canada Championships at Hamilton, which is replete with pictures of many of the "big guns."

Rod and Gun in Canada is published monthly at Woodstock, Ontario, by W. J. Taylor. Limited.

A. Brunette's new store next to The Enterprise is making rapid progress.

The miners of Nova Scotia will walk out on the 15th of August. There are about 12,000 of them.

### THE CHANGE IN BOYS

William Allen White has made the discovery that there are things in the psychology of the modern boy of which he was ignorant. His disillusion came with the success of his plan for a Fourth of July parade of boys with dogs at Emporia, Kan., with a prize to reward the youngster who had the largest number of canines in line. To the surprise of the distinguished editor and philosopher not a boy with even one dog turned out.

Time changes and boys change with the times. The trouble with many writers who pose as authorities on juvenile character is that in creating a fictitious type of boy, here they are apt to lose sight of the variations which occur in youthful interests from generation to generation. They popularize the Boyville with boyish figures embodying all that is best of traditional juvenile attributes who yet are not true to modern form.

Boys of the present day have so many new interests that going fishing, visiting the old swimming hole and even fraternizing with dogs have declined in the relative scale of importance. The modern boy inclines more to mechanical things. He tools the motor cars and tinkers with wireless telegraphy, and has boy scouts affiliations, and there are always the movies. Huck Finn would find himself a back number in a group of boys of this day and generation. The wonder is not that no Emporia boys were found ready to part with their dogs, but that a canny authority on boyish character should thought they would be. — New York World.

### EAST VIA THE GREAT LAKES

A diverse trip is offered by the Canadian National between Western and Eastern Canada, going east by boat returning by rail. There is nothing that contributes so much to the enjoyment of a business trip or holiday outing as travelling Canadian National to Port Arthur or Duluth, then steamers of the Northern Navigation Co., the "Noronic," "Hamonic," or the "Huronie." There's freedom and comfort in strolling along the decks of one of these luxurious steamers. A social hostess is constantly in attendance and devotes her energies to the entertainment of the ship's guests. In the evening every week-day there is dancing; music being supplied by the ship's orchestra. Refreshments are obtainable every evening, and afternoon tea is served in the Grand Saloon. The cuisine on board these ships is unequalled; the menu offering a wide selection to appease the keen edged appetites which are a natural sequence to promenades on deck in the clear bracing air of Lake Superior or the fresh breezes of Lake Huron. There is the option of travelling in the reverse direction by a cool all-air route—the Canadian National route.

GUN, RIFLE AND REVOLVER REPAIRS. Repair parts for all makes of firearms, restocking, etc. Firearms of all descriptions bought and exchanged. A. A. RUSSELL, Gunsmith, 139 Thirteenth Avenue West, Calgary.

The Football Club now report the following donations to their subscription list:

Previously acknowledged	\$210.00
G. N. Elwin	5.00
Dr. J. Oliver	2.50
The Enterprise	2.00
E. Ubertino	2.00
Dr. R. K. Little	2.50
Total	\$224.00

The new picture theatre in Bellevue opened last Friday night and had a record crowd in attendance. Mr. Cole, the proprietor, is to be congratulated on his new picture house for it is one of the neatest ones in The Pass.

A. Brunette's new store next to The Enterprise is making rapid progress.

The miners of Nova Scotia will walk out on the 15th of August. There are about 12,000 of them.

## Why and Wherefor of Prohibitory Laws

Unquestionably there is a considerable degree of restiveness among people over the laws and their subsequent enforcement of prohibitory laws and another. While the action of regulating bodies has expanded most vigorously in connection with prohibitory liquor laws, there is an undercurrent of feeling in relation to other matters as well. But do the people who so vigorously object to these repressive laws ever stop to ask themselves to what extent they are themselves responsible for their enactment?

Prohibitory laws are always the result of excessive over-indulgence, a lack of self-control, or self-denial. This statement holds true not only in regard to liquor legislation, but in regard to practically all laws of a sumptuous character. For example, the laws passed prohibiting the killing of beaver in Canada were rendered necessary because some hunters and trappers would not deny themselves the pleasure or profit to be derived from killing these industrious little workers. Close seasons for duck, partridge, chickens, and all kinds of game had to be established and are enforced for the same reason.

Every year the newspapers of this country are filled with reports of the destruction of millions of dollars worth of valuable forests, and in the vast majority of cases these destructive fires are the result of the carelessness arising out of the lack of a little self-denial on the part of someone who would not take the time or go to the trouble of properly protecting a campfire, or who started a fire for fun under conditions of wind or in such close proximity to bush as to invite a conflagration. Some people, too, have a mania for stripping the bark off of birch trees, or otherwise defacing public property which necessitates the enforcement of prohibitory regulations applicable to everybody.

One or two farmers in a given community will not exercise the self-denial, or take the precautions necessary, to keep their hands free from worms, with the result that the whole district is contaminated and suffers loss. The inevitable result is the passage of laws which compel everybody to destroy weeds. "Keep off the grass" signs in city parks always cause a feeling of indignation because it is felt that these grassy spaces should be for the special use of children on hot summer days. Why, there are such signs displayed? Because people will be selfish. The temperate use of park spaces would give them and everybody else real pleasure, but there are those who will persist in making beaten tracks across these lawns with the result that everybody is prohibited from walking on the grass.

Some people go fishing and hunt in everything they can, big and little, and keep it up regardless of their requirements for reasonable food, with the result that lakes and streams are fished out. If such people alone were the sufferers from such wholesale destruction they might well be allowed to suffer the penalty of their folly and lack of self-control. But everybody suffers, and so it becomes necessary every now and then to prohibit fishing altogether in such lakes and streams for a few years in order that the stock of fish may be replenished.

Sunday observance laws are passed so strict in character as to make that day one which is peculiarly uninteresting. Instead of hailing its coming as a day of joy and gladness, in some respects Canadian Sunday observance laws are like the blue laws of Puritan New England. Yet these laws have been enacted in order to prevent Sunday becoming even less restful and sacred than the other six days of the week.

It was not the moderate drinker, the man who really enjoyed a glass of beer as a beverage, who brought about Prohibition. Such a man was not a menace to the whole community. It was the man who drank to excess and in his drunken state was worse than a beast, or an insane man, ill-treating his family, and disturbing the peace of all, who caused such a revolution of public opinion as to lead to the demand that the sale of intoxicants of all kinds be rigidly prohibited.

It is a law of nature that the innocent must suffer with the guilty. It is a maxim that we must make provision in law and in law enforcement which will result in the greatest good to the greatest number. Hence the passage of prohibitory laws for the advancement of the public good, and to prohibit the majority from the selfishness and viciousness of the few.

Hand in hand with the passage of such laws goes another more important and lasting in the interests of the nation—the need for proper training of children in the duties, the obligations, in Canadian citizenship. There is need for a revival of teaching the young to respect the rights and property of others, and the property of the state which is the property of all. There is a crying need for the inculcation of the principles of self-control, self-denial, and a true conception of the gain to be derived from the practice of conservation in the true sense and meaning of the word.

### Canada's Population

Final Figures of the Sixth Census Are Announced

Canada's total population as at June 1st is 8,788,483. This is the final figure issued of the sixth census. The total represents a gain of 1,581,840 over the total population recorded in 1911, an increase of 21.95 per cent. A

total of 4,439,505 of the Canadian population is residing in rural districts as compared with 4,48,978 in urban centres. Ontario leads in population with 2,933,663 residents, followed by Quebec with 2,361,199. Alberta led the way in provincial increase with 57.22 per cent, followed by Saskatchewan with 53.80 per cent. These two western provinces have populations of 588,454 and 757,510 respectively.

**A Cruise on the Great Lakes**

Enjoy to the Fullest Extent the Trip East

The trip to Eastern Canada or the United States can be made doubly enjoyable by including the delightful cruise on the Great Lakes from Fort William and Port Arthur to Port McNicoll or Owen Sound on the Great Canadian Pacific Steamers "Kewatin," "Assiniboin," and "Manitoba."

Three sailings a week from Fort William and Sault Ste. Marie every Wednesday and Saturday to Port McNicoll. Direct connection is made with special train for Toronto, and every Thursday for Owen Sound. The Great Lakes trip is a delightful diversion to the East—Restful, cool and refreshing.

The Ticket Agent of the Canadian Pacific will be pleased to give full information as to rates, sailings, etc., and arrange every detail for an enjoyable trip.

**Saskatchewan Dairy Products**

According to figures recently made public the value of dairy products in Saskatchewan in 1911 was \$18,774,465. During the year 1912, in this province, the value of their dairy herds was a new record, a total of 7,085,625 pounds of butter leaving the province.

Minard's Liniment for Dandruff

### Strange Alpine Phenomenon

Palen of Fruit Tinges Whole Country Yellow Haze

A curious Alpine phenomenon is reported in different parts of the Canadian Rockies. When a strong wind ceases the whole country assumes a yellow hue. The Devil's Cauldron, 4,889 feet high, looked like a golden dome, and the forest seemed on fire, while Lake Louise resembled a sea of champagne. The yellow was caused by large masses of pollen from fruit trees, which was blown across the mountains and deposited when the wind dropped. The peasants call it "golden rain."

### When Does Bronchial Trouble Begin to Get Serious?

First it was a little-throat tickle, then a cough which grows severe. This neglected condition travels down the bronchial tube until it might be fatal. To treat throat trouble right, use Catarhazone. It heals the sore spots, relieves irritation, eases the cough, prevents colds, and keeps free from catarrhal and bronchial trouble by frequent use. Catarhazone has been proved to be effective every day. Sold everywhere, two months' treatment \$1.00, medium size 50c, small size 25c.

#### Experienced

"The man who gives in when he is wrong," said the street orator, "is a wise man; but he who gives in when he is right is—"

"Married," said a meek voice.—Passing Show.

#### Immigration for May

Immigration into Canada for the month of May, 1912, totalled 11,199, of whom 5,972 were British, 2,866 from the United States and 2,361 from other countries.

### CHOLERA INFANTUM

Cholera infantum is one of the fatal forms of cholera. It is a form of cholera which suddenly, especially during the summer months and unless prompt action is taken, is beyond all remedy.

Cholera infantum is one of the most remarkable puerile in Hamilton public schools is a Chinese child of fourteen. Last October he could not speak a word of English. Now he has passed the senior grade examination of his school with honors. In eight months he got through the work of four years. An intellectual awakening in China would mean something for the world if that boy is a fair sample of his kind. We know what an awakening has done for Japan—Woodstock Sentinel-Review.

#### British Engineering Exhibition in 1923

During the year 1923 a very successful exhibition of ships, engineering, mining and machinery will be held in London. Under the same auspices a similar exhibition is now being projected for the autumn of 1923. The preliminary arrangements have already been completed and the management is confident of getting together a thoroughly comprehensive display of engineering exhibits especially relating to shipping and factory equipment.

#### CATARHAL DEAFNESS

is greatly relieved by constitutional treatment. The U.S. Catarhal Deafness Foundation continues to remedy Catarhal Deafness by causing an inflated rubber tube to be inserted into the ear, and when it is entirely closed, pressure is then released. Under this pressure the catarhal fluid is reduced, the ear is freed and the destroyed hearing is restored. Hall's Catarhal Deafness Remedy is a special preparation containing astringent Nature in restoring normal condition. Circulars free. All Druggists. F. J. Cheney & Co., Toledo, Ohio.

# Board Of Directors Of Canadian Nat. Ry. Hand In Resignations

Toronto.—Following official announcement given out at Canadian National Railway headquarters that the directors of the system had handed in their resignations to the Government to facilitate reorganization of the directorate, it was intimated by one of them—though no one wanting to be quoted—that the directors of the Grand Trunk Railway would shortly follow the example and resign. The directors were in session at the Canadian National Railway headquarters. Two of them, A. P. Barnard, St. John, N.B., and Robert G. Hanna, of Hamilton, Ont., were not present, but their resignations were forwarded.

The following statement was issued by D. E. Hanna, President, of the Canadian National Railways, after a prolonged sitting by members of the board.

"At a meeting of the board of directors of the Canadian National Railways held today, the members of that board tendered their resignations to the Government.

"These regulations are preliminary to the appointment of the single board of directors which will succeed the separate boards of the Canadian National Railways and the Grand Trunk Railway. This will afford the Government a free hand in the selection of the new directors.

"Such selection may not be completed immediately, but in the meantime the interests of the Government railways will not suffer, as the present directors will continue to act until their resignations have been formally accepted."

"The future success of the Canadian National Railways depends on one thing, and one only," said D. E. Hanna, the retiring president. "That one thing is to keep out of politics."

Mr. Hanna declined to discuss the reasons which led up to the resignations. "I cannot speak of that," he said, "but of the road's future I am confident. If the non-politics principle is adhered to, it will be a success."

"Since I became president," Mr. Hanna added, "there has always been the fullest co-operation between all members of the directorate. There never has been any friction. When we were appointed, we assumed one rule, which was that if we could not unanimously agree upon any one point, it was to be decided dropped. I have endeavored to that."

Referring to the growth of the system, Mr. Hanna said:

"There have been times of struggle. We have had to spend large sums of money during the years 1919 and 1920, at a time when wages were high and labor was inefficient. At that time we had to revamp almost the whole system. The results are beginning to show now."

**Journal Compensated**  
Dublin.—The Recorder has awarded the Freeman's Journal £45,000 as compensation for the destruction done to its printing plant and offices during the attack made by a mob on March 28 last.

## Look for Higher Wheat Prices

Ottawa.—A profitable market for this year's wheat crop is in prospect, according to expert advices received by the Department of Trade and Commerce. European stocks are reported to be low. In a letter to the department one wheat exporting house expresses the opinion that there would be two dollar wheat this year if the ordinary law of supply and demand were not influenced much by adverse financial conditions. On this account, the prevailing price is problematical, though it is expected to be in advance of last year. Purchases in Europe, according to advices, are likely to be gradual, instead of the crop being marketed in huge consignments.

## Alberta Wheat Board Bill

### Question Now Ready to Go Before Legislature

Edmonton.—The wheat board question is now ready to go to the legislature, the bill having been fully prepared for the consideration of both the Alberta and Saskatchewan Houses. Dr. Walter Scott, K.C., legislative counsel for this province, is back from Regina, where, with the Saskatchewan counsel, R. W. Shanahan, he had been at work for several days on the drafting of the bill. He reports that this work has now been completed. It is understood that the same form will be followed in the Alberta bill as in that of Saskatchewan, the process being to introduce the bill about the end of this month. It is stated here. Mr. Lambert is to take an executive position with the Maple Leaf Milling Company. It is learned Mr. Lambert, a former Toronto newspaperman, has taken a very active part in the work of the council during recent years.

## Russians Make New Proposals

Hague Delegates Suggest Arrangements for Payment of Debt

The Hague.—The new proposal in connection with compensation for confiscated property and payment of the Russian debt were advanced by the Russian delegates at a meeting with the entire non-Russian commission of the conference on Russian affairs here.

The Russians suggested an arrangement by which Russia would undertake to negotiate directly with foreigners for the payment of compensation for confiscated property and with bond holders for settlement of the Russian debt.

The Russians proposed that all the delegates, including the Russian, submit their project to their respective governments and submit an answer for one week at The Hague. The Russians for the time being dropped the question of credits, as they said the non-Russian had declined credits. It was announced that the non-Russian representatives would meet later to discuss the proposal.

Russia, her representatives said, would engage to make arrangements with foreign claimants within two years.

## Norman Lambert Resigns

Giving Up Post of Secretary of Agricultural Council

Winnipeg.—The resignation of Norman P. Lambert from the post of Secretary Canadian Council of Agriculture will be presented to the council at a meeting next week. Winnipeg is about the end of this month. It is stated here. Mr. Lambert is to take an executive position with the Maple Leaf Milling Company. It is learned Mr. Lambert, a former Toronto newspaperman, has taken a very active part in the work of the council during recent years.

## Greece Again Meets Payments

Change of Government Caused Lapse in Loan Interest

Ottawa.—Greece, it is understood, is again meeting interest payments on the loan of seven and a half millions advanced by Canada, in the forms of credits in 1919. When the credits were first granted, interest payments were regularly paid, but, following some changes in Greece, there was a lapse.

Roumania is still in default in interest payments on the loan of twenty millions, but there is hope that they will be met eventually. On March 31, 1922, Roumania owed to Canada in interest alone, the sum of \$2,606,652.

**China's Department of Finance Closed**

Peking.—Minister of Finance Tung Kang closed the doors of the Department of Finance with the announcement that they would remain closed until funds could be found for the empty treasury. He predicts that President Li Yuan-Hung's administration will be unable to weather the present crisis.

**Steam Pipes on U.S. Warship Explode**

Port Angeles, Wash.—Exploding steam pipes on the battleship, New York, flagship of the Pacific fleet, scalloped one man, rendered 12 others unconscious, severely injured a colistick between the flagship and the destroyer, McDermot, as the fleet was returning to this port from maneuvers.

Kildon-St. Andrews—D. A. Tanner, 492.

Deferred—3

The Pas, Ruperts' Land, and Ethelbert.

## Irish Rebel Forces Seize Food Supplies And Increase Hardships

### Britain and Emigration

London.—Lord Birkenhead, speaking at an Australian luncheon here, mentioned that the chairman, Sir Joseph Cook, High Commissioner for Australia, had just signed a colonial office document under which the British government, which had 20,000,000 annually, had undertaken to bear half the cost of sending out approved emigrants to the dominions. Sir Joseph, interviewed on the subject, said the agreement referred to by the Lord Chancellor would extend over 15 years, and there would be no limit in the settlement of families encouraged to emigrate.

A motor car has been seized at Tulamore that any motor car arriving in the town must be kept for military purposes; and, according to the Belfast Telegraph correspondent, all males from fourteen years upwards in the region between Tulamore and Birr are being conscripted.

A large proportion of the conscripts, however, is reported to have deserted and to have joined the National forces. Republicans hold Tulamore post office and no old age pensions have been paid or letters delivered for more than a fortnight.

The military barracks at Birr, held by Republicans, forms their headquarters in the Midlands, and the post office, court house and other public buildings there have been taken over. All roads leading to the town are guarded and barricaded with sand bags, while trees have been cut down and trenches dug for further obstructions.

Several of the stores have posted notices reading: "Provisions sold out."

### May Consider Joint Defense Policy Desired by New Zealand and Australian Officers

London.—A regular cable from Sydney, N.S.W., says that it is officially announced that the New Zealand flagship Chatham will shortly visit Australia in return for a recent visit from the flagship Melbourne to Auckland. If the earnest desire of the naval officers is any guide, it is not unlikely that overtures will be made for an understanding between the Dominions of New Zealand and Australia in the direction of a joint naval defence policy.

### Bridge at Galway Destroyed

Belfast.—The Telegraph's Mulligan correspondent reports the destruction of the Port Muna bridge in Galway. The structure was one of the most important in that neighborhood and cost £100,000. The suspension bridge at Banagher was fired by the Republicans. It is the main railroad bridge between Kings County and Galway.

### Government Docks Nearly Completed

Victoria, B.C.—On August 1, the Government docks at Ogden Point, built at a cost of \$2,500,000, will be ready for use, according to an announcement here by Captain C. S. Nicholson, Superintendent of Floating Equipment for the Canadian National Railways.

### Lord Mountbatten Honored

London.—It is announced that Lord Mountbatten, who became the husband of Miss Edwina Ashley, has been created a Knight Commander of the Victorian Order. Lord Mountbatten was aide to the Prince of Wales on the recent tour.

### Child Dies from Burns

Regina.—Laurence Edmonton Hamilton, two-year-old son of Mr. and Mrs. Z. M. Hamilton, died at the General Hospital as the result of burns received while playing with matches.

### No Decision on Wireless Service

London.—The South African Government has not reached a final decision in regard to a wireless service.

Premier Smuts stated in the House of Assembly.

### Saw Fly Damaging Crops

Brandon.—Wheat stem saw fly is damaging the crops in the Douglas district, according to reports from there. The extent of the damage cannot yet be ascertained.

## Indications Point To Early Adjustment Of All International Debts

London.—Statements in the House sat to £2,500,000,000, compared with £5,600,000,000, which is the present figure. They declare that nothing will be done pending the report of the reparations commission. There has been no suggestion that the bankers' commission should be reconvened, they said.

British officials decided to discuss the reparations commission, of July 11, applying for a moratorium, the German Government, it is announced, has sent a note to the Allied Governments asking that the monthly reparations payment, which hitherto has amounted to £2,000,000, should be reduced to £2,000,000, for the period ending December 31.

The Government further requested that during the same period all cash payments of compensation respecting damage inflicted upon property rights or interests of subjects of allied or associated powers in Germany, be suspended.

T. Pondelicek has put a new awning over the south side of his store on Victoria Street.

## Local and General Items

For funeral services phone 212, Crown's Nest Pass Undertaking Co.

Capt. W. A. Beebe spent a few days in Fernie last week.

Mrs Jessie Shead, of Pincher Creek, is spending a few days in town.

W. Howe, senior, is constructing a work shop for the town on Sixth Avenue.

Johnnie Shafer is in town for a few days. He has been working recently in Calgary.

Rev. W. T. Young left for Edmonton on Tuesday, and will be absent for a week or so.

Mr. and Mrs. Swanne are visiting at the home of Mrs. Swanne's father, Mr. Kafoury.

Mr. and Mrs. Hopkins have returned to their home in Coleman after a lengthy visit to Wales.

Mr. and Mrs. George Kellock, of Coleman, are spending a holiday by motoring to Lake Windermere.

Mr. and Mrs. W. Bird have gone on through to Calgary and Banff to spend the remainder of their vacation.

Mrs. J. J. Purvis returned from Lethbridge this week where she had been visiting her daughter, Mrs. Percy Barber.

A dance was held in the opera house last Saturday night after the football game and had a very good attendance.

Inspector Ryan, of the A. P. P., was in town this week looking things over and is highly satisfied with the state of affairs in The Pass.

W. J. Bartlett, proprietor of The Enterprise, is expected to arrive home on Sunday after a couple of months visit to his old home in Newfoundland.

Mr. and Mrs. W. Bird and Mr. and Mrs. Walter Scott arrived back last Friday from Spokane. They report the roads in fine shape and also state that they had an excellent trip.

Tom Cherry had the misfortune to hit a big rock on the slide road last Monday and as a result Mrs. Golding and Mrs. Harrison were badly shaken up and his Chevrolet car was pretty well smashed.

Belle Cooper won the final game of the Cooper Cup Football Trophy here last Saturday night when they defeated Hillcrest by one goal to nothing. Quite a number of fans witnessed the game and state that it was very fast.

An open golf competition for the first year players will be held on the Lundbreck links on Sunday, August 5th, at 1:30 p.m. Ladies will play nine holes and gentlemen 18 and all interested are kindly invited to attend.

The death took place on Friday last of Mrs. Frank Amato of Blairmore, in the Bellevue hospital after a short illness. Besides her husband, she leaves three small children to mourn her loss. Interment took place in the Catholic cemetery on Sunday and was attended by over two hundred persons, being one of the largest ever held in Blairmore. Mr. Amato had hardly recovered from the shock he received when the car he was driving was hit by the local, so the sudden death of his wife came as a hard blow.

WANTED—To hear from the owner of good Ranch for sale. State cash price, full particulars. D. F. Bush, Minneapolis, Minn.

FOR RENT—Fully modern furnished rooms. Apply to The Enterprise. 29-t.c.
